

Program Content Disclaimer

Research conclusions, viewpoints, and comments expressed by program participants in program descriptions or in presentations scheduled during APA 2026 are those held expressly by the individual presenter and do not reflect the policy of the American Psychological Association. Likewise, content of videos and other media shown during APA 2026 reflects the viewpoints of the filmmaker and its producers and not those of the APA.

In addition, the APA convention includes a wide range of sessions developed by APA's 54 divisions, which operate autonomously with their own governance and represent the diversity of psychology's many subfields and perspectives. While APA's central leadership oversees the overall structure and standards of the convention, individual divisions determine their own programming through a process that includes professional review. APA does not endorse the personal or political views of individual presenters, nor does it pre-approve or censor content.
