Red Cards

All people in the United States, regardless of immigration status, have certain rights and protections under the U.S. Constitution. The Red Cards were created to help people assert their rights and defend themselves against constitutional violations. Knowing and asserting rights can make a huge difference in many situations, such as when ICE agents go to a home. Red cards provide critical information on how to assert these rights, along with an explanation to ICE agents that the individual is indeed asserting their rights.
